# IATI Proudly Led the Iconic Bell-Ringing Ceremony at NASDAQ

On May, IATI proudly led a delegation of distinguished Israeli industry leaders in ringing the opening bell at Nasdaq MarketSite. This event served as a powerful symbol of Israeli resilience and the unwavering spirit of innovation that continues to propel the nation's high-tech sector forward.

With over 100 Israeli companies currently listed on Nasdaq, Israel stands as a global leader in high-tech development. The IATI delegation's, led by Karin Mayer Rubinstein CEO & President of IATI, presence at the bell ringing ceremony solidified this status and highlighted the crucial role Israeli innovation plays in shaping a brighter future.

# IATI Israel's Life Science Annual Industry Report 2023-24: Available in different languages

Earlier this year we have published and proudly presented the **IATI Israel's Life Science Annual Industry Report 2023-24**.

Now, we are excited to share that **the Report was translated to 5 different languages; Spanish, French, Chinese, Portuguese and Arabic.**

The Report was translated with the aim of making the review of the HealthTech industry in Israel accessible to the international industry and strengthening global connections, especially during these times.

The Life Sciences Report, launched at the MIXiii Health-Tech.IL conference, provides the most comprehensive and in-depth view of this thriving industry. The continuity, annual comparison, and long-term perspective all make the report the most comprehensive overview of the life sciences industry in Israel.

The Report was translated by Q-lingua.

# 2024 Forums & Committees Quarterly Meetings

## IATI MNC Forum

The IATI MNC Forum gathered for its quarterly meeting at Amdocs offices.

At the meeting, we hosted Prof. Ami Moyal, President of Afeka College, who gave a lecture on the topic of the graduate profile as a basis for changing the engineering education process. In addition, we held an open discussion in the forum about the challenges that Multinational Companies are experiencing in light of the situation in Israel.

Following the quarterly meeting, we held an additional focused meeting together with the CEO of the Innovation Authority, Dror Bin.

In our meeting, held at Meta offices, we discussed the challenges that multinational companies face in light of Israel's current situation.

# 2024 Forums & Committees Quarterly Meetings

## IATI HR Global Companies Workgroup

We have convened the quarterly meeting of The IATI HR Global Companies Workgroup in Google's R&D center in Israel.

At the meeting, we hosted Einat Zinger Dan, who leads the business desk of 'Israel Mitgaseset', and Brigadier General Tzachi Hefetz, Head of the General Staff Headquarters for Reserve Service, who provided an overview of the challenges related to human capital, reserves, returning to work, and all that between. Additionally, we hosted Lieutenant Colonel (res.) Sarit Shapira, who gave a lecture on the systemic program for maximizing women's capital in the Intelligence Division and how the conclusions can be applied to the industry, according to the challenges of the industry in the time of war.

# 2024 Forums & Committees Quarterly Meetings

## IATI Legal & Accounting Committee

We gathered the quarterly meeting of the IATI Legal & Accounting Committee in Lipa Meir & Co. firm.

The meeting focused on the challenges facing the industry these days. The committee's working groups provided updates on their activities and progress.

This committee incorporates the managing partners of the high-tech departments at the leading law and accounting firms in Israel.

## IATI VC and Investment Funds Committee

We convened the quarterly meeting of the VC and Investment Funds Committee of IATI at Team8 in Tel Aviv. During the meeting, we held an open discussion on the industry's challenges following the current situation in Israel and the "Initiative 2.0" plan.

Following the meeting we initiated the committee to 3 new task forces.

# Israel Mitgayeset

Israel Mitgayeset is an arena for joint action for social, economic resilience and effective support for the needs of the industry in times of war and reconstruction.  
The purpose of the arena is to create a planned, synchronized and effective solutions to existing and future challenges.

During the last quarter, we conducted several different activities in cooperation of IATI and Israel Mitgayeset, including a meeting of the national CEOs forces.  
At the meeting we have joined efforts, exchanging ideas, with the aim of advancing the Health-Tech and Life Science Industry in the north of Israel, despite the challenges of these times.

# 'Meshuhreret-Tech' Program 2024

IATI in collaboration with the Social Economic Forum, Jerusalem Development Authority, IDF, IAI, and Check Point, have established the 'Meshuhreret-Tech', prestige one of a kind Program, which stands for 'Meshuhreret-Tech' 'Meshuhreret-Tech', with the aim of increasing the number of women in the high-tech industry.

About 60 female soldiers who have been released from the army are participating in the Meshuhreret-Tech program in Jerusalem this year. The goal is to provide the participants an in-depth mentorship process to encourage them to integrate into academic engineering studies.

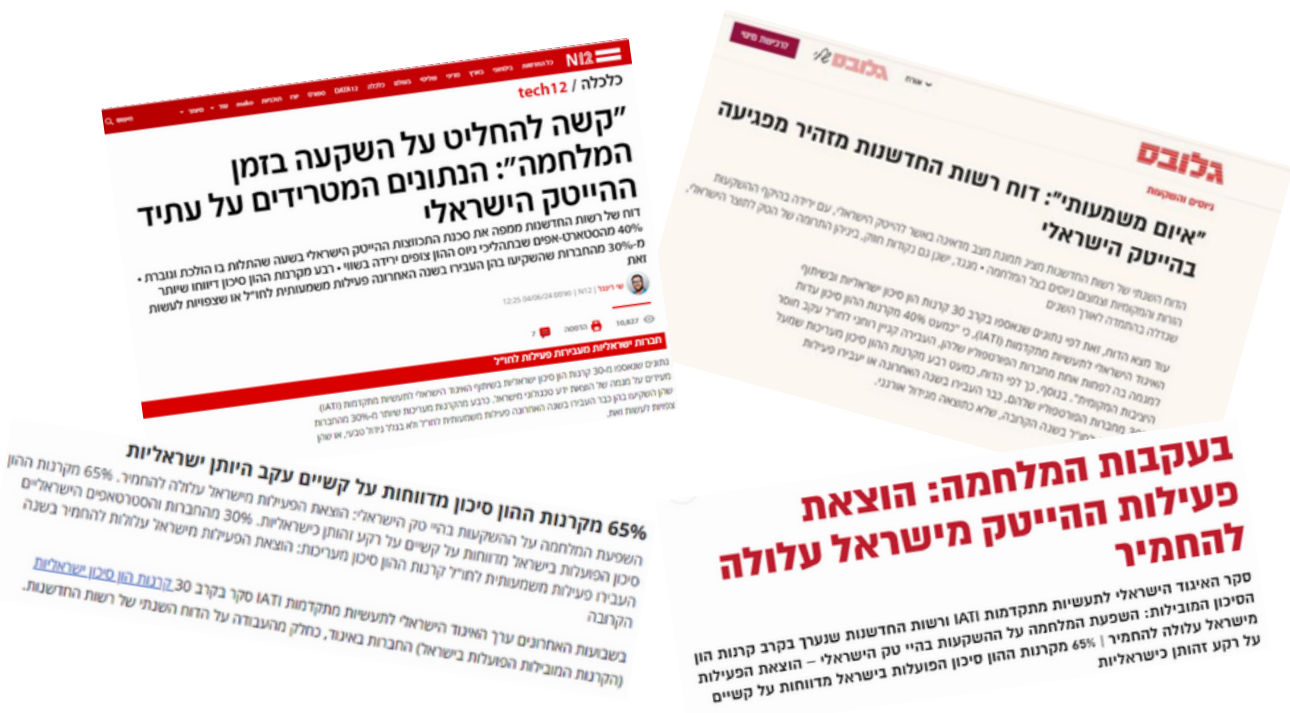

# IATI VC Survey: The impact of the war on Israeli high-tech investments

IATI in cooperation with the Israel Innovation Authority, as part of their annual report, Conducted a survey among 30 leading venture capital funds, about the impact of the war on Israeli high-tech investments.

The survey, as part of the entire report, provided us with an important perspective on the state of the industry and its future, and was also widely covered in the Israeli press and media.

According to a survey conducted by the Israel Innovation Authority and IATI among leading venture capital funds:

- 65% of the venture capital funds operating in Israel report difficulties due to their Israeli identity.
- Approximately 30% of Israeli companies and startups have relocated significant activities abroad.
- Venture capital funds estimate that the relocation of activities from Israel may worsen in the coming year.

# Women in Tech - Diversity, Inclusion & Equity Course for Tech Companies

## Women in Tech - Diversity, Inclusion & Equity Course for Tech Companies The 3rd Round came to an end

The course was formed as a collaboration between IATI, itworks & the Equal Employment Opportunity Commission. It was designed specifically for the high-tech sector, focusing on the unique challenges in the local and global arenas, and connecting to the business dynamics in the field. The course provides professional knowledge & work methods in order to attain an optimal integration of all Israeli diverse minorities and offers further consulting to initiate & implement DEI strategic processes in the organization.
